Ever faced this situation?

怎麼解決長輩使用3C一直問問題勒?

2016-06-13 15:11 | 7304 | 0 | 收藏 | 回覆

我必須先承認...我沒耐心(跪)
從智慧型手機越來越多&必要以來
因為我是晚輩裡最大的，所以長輩都好(逼)喜(屎)歡(人)~問我怎麼用...
可是因為我自己住在外面，所以長輩都是打電話來問我
像上周，我媽電腦連不上網，我請她開起網路總管中心檢查
就已經要崩潰....後來想說不然從控制台...她還是找不到.....
雖然幫老媽解決問題是應該的
但..老媽常常在我工作時打來，然後一講就會好久Q_Q
不知道大家有沒有遇過這樣的問題，都怎麼解決?
叫他們打客服...也未必有用><

___ooooo__ooo 2025-1-2 ...

其實有時候看到老人家不太會用3C產品的時候都會覺得蠻難過的 感覺有一種被時代拋棄的感覺 翻譯

The Problems

Lack of Digital Skills

They often don't know how to use new apps or devices.

Fear and Resistance

They may feel intimidated by new technology and avoid using it.

Not Wanting to Trouble Their Children

Many seniors are reluctant to bother their busy children, especially when the questions are repetitive.

Grandma Helper

Helping seniors to use smartphones with confidence, skill, and joy.

Grandma Helper

Phone Operation Guidance

- Supports most commonly used apps
- Enter what you want to do and receive step-by-step instructions
- Simple interface, easy to learn
- Instant responses to solve problems right away

Greeting Images

- Provides unique and personal greetings greeting images so seniors always have something new to share

ScreenMonitor

- Android's built-in Accessibility Service
- Monitors on-screen information and converts it into key descriptive text.

Phone Screen

Screen Monitoring Information

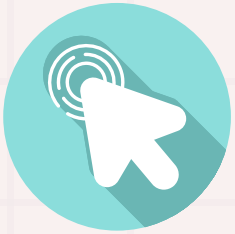

```
=== 可點擊元素 (4 項) ===
          • "小"  [id=text1]  <CheckedTextView>
          • "中"  [id=text1]  <CheckedTextView>
          • "大"  [id=text1]  <CheckedTextView>
          • "特大"  [id=text1]  <CheckedTextView>
=== 文字內容 (4 項) ===
          • "小"  [id=text1]  <CheckedTextView>
          • "中"  [id=text1]  <CheckedTextView>
          • "大"  [id=text1]  <CheckedTextView>
          • "特大"  [id=text1]  <CheckedTextView>
```

Speech Output

- Using Android Speech TTS
- Converts the Support Agent API's text responses into speech and plays them aloud

Tap Indicator

- Using Android's Ripple Effect
- Use Tap Indicator returned by the Support Agent API to highlight options.
